Discovery of Coal in Wales.

During the reign of Henry VIII., many attempts were made to discover coal in north Wales, and a Shrewsbury man, named Richard Gardner, was the only person who succeeded. The old records read: "He attempted and put into proof to fynde out coles about the town (Shrewsbury) in sondry placyces, and in one place especiall callyd Eustatine Haye, hard by the sayd towne, he found by his great diligencie and trouall great store of see cole, the which is lyke to come much commodite both to the riche and poore, that he is not only worthy of commendacion and mayntenance, but also to be had in remembrance for ever."—Cardiff Westm. Mail.

The Russian Climate.

The Russians count upon their climate as one means of defense, as it was when Napoleon invaded Russia. Their troops are accordingly trained in winter maneuvers, including loading a battery, with its war transport and material complete, upon sleighs, moving it for some distance over a difficult snow covered country and bringing it into action again.

A Curious Eating Custom.

The Dyaks divide in pairs when the hour arrives for taking food, the father and mother at one platter, two sisters at one and still two brothers at another. When the family is not equally divided as to sex, a brother and sister may eat together, but this must always be the youngest and oldest of the family.

Her Pet Name.

"Ah!" he sighed after she had blushingly whispered "Yes" in his bosom. "My own McHabibei! Oh, that name's so formal! Surely your friends use some shorter one, some pet name?"

"Well," she murmured, "the girls at boarding school used to call me Pleekles."—Philadelphia Press.

MEDICINAL

More Harmful Than Alcohol

Overeating Worst Form of Intemperance.

If your food is undigested, you are undressed, no matter how much you eat. And the underfed man is, to the extent of the underfeeding, crippled for the battle of life. On the other hand, there is such a thing as overeating. The harm done by indigestion caused by overloaded stomach exceeds that from the increased heart beats caused by the use of alcohol or whiskey.

Eat as much good food as you need but don't overload the stomach. If your stomach is weak it may refuse to digest what you eat. Then you ought to use a good digestant like Kodol Dyspepsia Cure, which digests what you eat without the stomach's aid. This rest and the wholesome tonics contained in Kodol Dyspepsia Cure soon restore health. You don't have to diet. Don't eat too much. That's harmful. Eat enough and of sufficient variety. Kodol Dyspepsia Cure will digest it. It quickly relieves the sensation of fulness and bloating from which some people suffer after meals. It prevents belching and absolutely cures indigestion and other stomach troubles. Equally good for children.

Emmet James, Maryville, O., says: "I suffered from dyspepsia for thirty years but a few bottles of Kodol Dyspepsia Cure completely cured me and I heartily recommend it to all sufferers from this disease."
